

Your privacy is of the utmost importance to us and we take measures to secure it including the use of HIPAA compliant electronic medical record software. Additionally, our privacy policy applies to all patients and / or visitors to our website or other online platforms. Your visit to and interaction with these sites infer you understand and agree to any risks associated with using such platforms.

Please note that any information you post or disclose on our site, social media pages or through email carries the risk of becoming public even with the security and privacy measures we have in place. We urge you to be very careful when deciding to share your personal information, or any other information on our social media pages.

Your personal information is collected by us when you complete our *Contact Us* form on our website. This information could include your name, phone number, email address, or address. If you choose to correspond with us through email, phone or text, we may document this as part of your electronic chart.

We also respect the rules around personal health information and the privacy around it. We understand that some of our patients have family members and friends that also come to our clinic, but we cannot discuss their visits or potential interactions with you without their signed permission. Minors must have an adult accompany them and sign for any procedures that are performed. Adult children 18 or over must make their own appointments in order to respect their privacy as well. We thank you for your understanding around these protocols we have in place to protect patients' privacy.
